

Effective Date: January 1<sup>st</sup>, 2016

**Beacon Interdependent Practice Organization, LLC  
Beacon IPA, LLC and  
Beacon Health Partners, LLP**

***Organized Health Care Arrangement***

**JOINT NOTICE  
OF  
PRIVACY PRACTICES**

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.**

This Joint Notice of Privacy Practices is provided to you on behalf of Beacon Interdependent Practice Organization, LLC, Beacon IPA, LLC, and Beacon Health Partners, LLP (collectively referred to herein as "Beacon"). The term Beacon includes its programs, employees, workforce members, and participating physicians and/or providers. Physicians and/or providers participating in Beacon's Organized Health Care Arrangement are listed in the Addendum to this Joint Notice.

All Beacon physicians and/or providers have entered into an Organized Health Care Arrangement ("OHCA") in order to function as a clinically and operationally integrated entity. Beacon physicians and providers will participate in joint utilization review and quality assessment and improvement activities. Collectively, Beacon, including its programs, employees, members, physicians, and providers, and the OHCA, are referred to as "We" or "Our."

This Joint Notice of Privacy Practices is provided to you pursuant to the Health Insurance Portability and Accountability Act ("HIPAA") and related State and Federal laws regulating protected health information ("PHI"). PHI is information about you that may identify you and relates to (1) your past, present, or future physical or mental health condition, (2) the provision of physician or mental health care we provide to you, or (3) the past, present or future payment for the provision of health care services we provide to you.

HIPAA is a Federal program that requires that all medical records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper, or orally, to be kept confidential. Pursuant to HIPAA, you, the patient, have significant rights to control how your PHI is used. HIPAA provides penalties for covered entities that misuse PHI and we are required by law to keep your PHI confidential.

This Joint Notice provides you with information about your rights and our legal duties and privacy practices with respect to the privacy of your PHI. This Joint Notice also discusses the uses and disclosures we will make of your PHI. We reserve the right to change the terms of this

Joint Notice. You may request a written copy of our most current privacy notice from our on-site [Compliance Officer / Human Resources Generalist] or you can access it on our website at [<http://www.beaconhealthpartners.com>]

### **Uses and Disclosures of Your PHI relating to Treatment, Payment & Operations**

We can use or disclose your PHI for purposes of treatment, payment, and health care operations. For each of these categories of uses and disclosures, we have provided a description and an example below. However, not every particular use or disclosure is listed.

- **Treatment** means the provision, coordination, or management of your health care, including consultations between health care providers relating to your care and referrals for health care from one health care provider to another. For example, a doctor treating you for a broken leg may need to contact a physical therapist to create an exercise regimen appropriate for your treatment.
- **Payment** means the activities we undertake to obtain reimbursement for the health care services provided to you, including billing, collections, claims management, determination of eligibility and coverage, and other utilization review activities. For example, prior to providing health care services, we may need to provide information to your health insurance company about your medical condition to determine whether the proposed course of treatment will be covered.

When we bill the insurance company for our services provided to you, we can provide the insurance company with information about your care in order to obtain payment. In some cases, federal or state law may require us to obtain a written authorization from you prior to disclosing certain PHI for payment purposes. We will ask you to sign a release when needed.

We may also employ Business Associates, such as a billing company or collection agency to help us bill and collect. All Business Associates will be bound to comply with protecting the confidentiality of your PHI through written contract.

- **Health Care Operations** means the support functions of Beacon related to your treatment or payment for services. For example, we may use your PHI to evaluate the performance of our physicians and/or providers when caring for you. We may combine health information about many patients to decide what additional services we should offer and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians and others for review. In addition, we may remove information that identifies you from your patient information so that others can use the de-identified information to study health care and health care delivery without learning who you are.

### **Description of Other Required or Permitted Uses and Disclosures of PHI**

In addition to using and disclosing your information for treatment, payment and healthcare operations, we may use your PHI in the following ways:

- **Appointment Reminders and Related Services:** We may contact you to provide appointment reminders for treatment; pre-register you for scheduled services; do a telephone interview prior to a test or procedure; follow-up with you on your condition; or tell you about possible treatment alternatives and services that may be of interest to you. If you do not wish to be contacted for appointment reminders, you may provide us with alternative instructions in writing.
- **Child Immunization:** We may disclose proof of immunization to a school where state or local laws require the school to have such information prior to admitting the student. Although we are not required to obtain written authorization, we must obtain agreement, which may be oral, from your parent, guardian or other person acting *in loco parentis* for you, or from you, if you are an adult or an emancipated minor.
- **Disclosures to Family or Individuals Who Are Involved in Your Care:** We may disclose relevant portions of your PHI to your family, friends or individuals who you have identified as being involved in your medical care or the payment for care. We may disclose your PHI to notify, or assist in the notification of a family member, a personal representative, or another person responsible for your care, of your location, general condition, or death. If you are present or otherwise available, we will give you an opportunity to object to these disclosures, and we will not make these disclosures if you object. If you are present or available, we will determine whether a disclosure is in your best interest, using our professional judgment.

We will allow your family and friends to act on your behalf to pick-up filled prescriptions, medical supplies, X-rays, and similar forms of PHI, when we determine, in our professional judgment that it is in your best interest to make such disclosures.

- **Research:** We may use or disclose your PHI for research purposes, subject to the requirements of applicable law. Such disclosures must also be cleared through a special approval process before any PHI is disclosed to the researchers who will be required to safeguard the PHI they receive.
- **As Required by Law:** We will disclose your PHI when required to do so by federal, state or local law.
- **To Avert Threat to Health or Safety:** In order to avoid a serious threat to your health or safety and/or that of the public or another person, we may use or disclose your PHI to someone who can reasonably prevent or lessen the threat of harm. For example, if a patient is threatening to harm him/herself or another individual, we may notify law enforcement, or the Department of Mental Health or other professionals who might evaluate the patient for potential psychiatric hospitalization.
- **Public Health Purposes:** PHI will be provided to local, state or federal public health authorities, as required or permitted by law, to prevent or control disease. For example, if a patient presents symptoms of TB, we are required to notify the Health Department. We

may notify a person who may have been exposed to a disease or may be at risk for contracting or spreading a disease or condition.

- **Law Enforcement:** We may disclose your health information, excluding certain mental health and/or substance abuse information to law enforcement in response to a court order, warrant, subpoena, summons or similar process issued by a court.
- **Coroners, Medical Examiners, and Funeral Directors:** We may release health information to a coroner or medical examiner. Such disclosure may be necessary, for example, to identify a deceased person or determine the cause of death. We may also release PHI to funeral directors as necessary to carry out their duties.
- **Reports of Child Abuse and Neglect:** We will disclose PHI to appropriate authorities to report suspected child abuse or neglect.
- **Reports of Adult Abuse and Neglect:** We may notify the appropriate government authority if we believe that an adult patient has been the victim of elder or dependent adult abuse.
- **Lawsuits and Disputes:** If you are involved in a lawsuit or dispute, we may disclose your PHI in response to a court or administrative order. We may also disclose your PHI in response to a subpoena, discovery request, or other lawful process by someone else involved in the dispute, but only if efforts have been made to tell you about the request (which may include written notice to you), in case you wish to obtain an order protecting the PHI requested.
- **Organ and Tissue Donation:** If you are an organ donor, we may release health information, excluding certain mental health information and/or substance abuse information, to organizations that handle organ procurement or organ, eye, or tissue transplantation or to an organ donation bank, as necessary to facilitate organ or tissue donation and transplantation.
- **Military and Veterans:** If you are a member of the Armed Forces, we may release health information, excluding certain mental health information and/or substance abuse information, about you as required by military command authorities. We may also release health information about foreign military personnel to the appropriate foreign military authority.
- **Workers' Compensation:** We may disclose your health information, excluding certain mental health information and/or substance abuse information, for workers' compensation or similar programs that provide benefits for work-related injuries or illness.
- **Specialized Government Functions and Purposes or Security:** We may disclose your PHI to authorized federal officials for intelligence, counter-intelligence and other national security activities authorized by law. We may disclose your PHI to authorized federal

Effective Date: January 1<sup>st</sup>, 2016

officials so they may provide protection to the President, other authorized persons or foreign heads of state, or other national security activities as authorized by law.

- **Fundraising Activities:** We may use or disclose your PHI to contact you and inform you about fundraising activities. You have the right to opt-out of receiving any fundraising communications by checking the opt-out box on the Acknowledgement of Receipt form and submitting it to your physician or by sending a letter to the address at which you are treated..
- **Inmates:** If you are an inmate, we will use and disclose your PHI to a correctional institution or law enforcement official only if you are an inmate of that correctional institution or under the custody of the law enforcement official. This release would be necessary: (1) for the institution to provide you health care; (2) to protect your health and safety or the health and safety of others; or (3) for the safety and security of the correctional institution.

#### **YOUR WRITTEN AUTHORIZATION IS REQUIRED FOR ALL OTHER USES OR DISCLOSURES OF YOUR PHI**

- We will obtain your written permission (an "Authorization") prior to making any use or disclosure other than those described in this Joint Notice.
- The following uses and disclosures will only be made with your authorization:
  - Uses and disclosures for marketing purposes;
  - Uses and disclosures that constitute the sale of PHI; and
  - Most uses and disclosures of psychotherapy notes.
- The authorization must specify the use or disclosure, other than those above, that you may request or that we plan to make of your PHI. The authorization will describe the health information to be used or disclosed and the purpose of the use or disclosure. The Authorization will also specify the name of the person to whom or entity to which the health information is being disclosed, and it will be limited to an expiration date or event.
- You may revoke an Authorization previously given by you in writing. If you revoke your Authorization, we will no longer use or disclose your health information for the purposes specified in that Authorization, except where we have already taken actions in reliance of your Authorization. Your revocation will become effective as soon as we are reasonably able to enter it into our records, which is typically within five (5) business days after we receive the letter. Your revocation will not affect our prior reliance on your authorization prior to the effective date of the revocation.

#### **YOUR RIGHTS REGARDING YOUR PHI**

You have the following rights regarding your PHI in our records.

- **Right to Inspect and Copy Your PHI:** With certain exceptions, you have the right to inspect and copy your PHI from our records. You must submit your request in writing to your provider or the person in charge of your treatment. A form will be provided to you for this request. If you request a copy of your PHI, we may charge a fee for the cost of copying, mailing, or other supplies associated with your request. We will respond within seven (7) business days of your written request.

We may deny your request to inspect and copy under certain circumstances. If you are denied the right to inspect and copy your PHI in our records, you may request that the denial be reviewed. With the exception of a few circumstances that are not subject to review, another licensed health care professional within the participating provider, who was not involved in the denial, will review the decision. We will comply with the outcome of the review.

- **Right to Request an Amendment:** If you feel that your PHI in our records is incorrect or incomplete, you may ask us to amend the information. You have the right to request an amendment for as long as we keep the PHI. A form will be provided to you for this request, which may be obtained from your provider or the person in charge of your treatment.

We may deny your request for an amendment if it is not in writing or does not include a reason to support the request. In addition, we may deny your request if you ask us to amend your PHI that:

- Was not created by us, unless you can provide us with a reasonable basis to believe that the person or entity that created the PHI is no longer available to make the amendment;
- Is not part of the PHI kept by us;
- Is not part of the PHI which you would be permitted to inspect and copy; or
- Is accurate and complete.

If we deny your request for amendment, you have the right to submit a statement of disagreement. We will provide you with a form in which you can document your disagreement with respect to any item or statement in your record you believe is incomplete or incorrect. If you clearly indicate in writing that you want this form to be made part of your medical record, we will attach it to your records and include it whenever we make a disclosure of the item or statement you believe to be incomplete or incorrect.

- **Right to an Accounting of Disclosures:** You have the right to request an “accounting of disclosures.” This is a list of the disclosures we made of your PHI other than for treatment, payment and health care operations, or other legal exceptions.

You can make a request for an accounting of disclosures by obtaining a form from your provider or person in charge of your care. Your request must state a time period for the accounting (for example, the past three months). You may not request information for any period of time greater than six years (our legal obligation to retain information). The first list you request within a 12-month period will be free. For additional lists, we may charge you for the costs of providing the list. We will notify you of the cost involved and you may choose to withdraw or modify your request at that time before any costs are incurred.

- **Right to Request Restrictions:** You have the right to request that we follow additional, special restrictions when using or disclosing your PHI for treatment, payment or health care operations. You also have the right to request that we follow additional, special restrictions when using or disclosing your PHI to someone who is involved in your care or payment for your health care, like a family member or friend. For example, you could ask that we not use or disclose that you are receiving services at a certain facility.

**We are not required to agree with your request.** If we do agree, we will comply with your request within seven (7) business days from acceptance unless the information is needed to provide you emergency treatment.

You can make a request for additional restrictions on use and disclosure of PHI by obtaining a form from your provider or person in charge of your treatment. In your written request, you must tell us: (1) what information you want to limit; (2) whether you want to limit our use, disclosure, or both; and (3) to whom you want the limits to apply (for example, disclosures' to your spouse).

- **Right to Restrict Certain PHI to a Health Plan:** You have the right to require us to restrict any disclosure of your PHI to a health plan regarding an item or service for which you (or someone on your behalf- other than a health plan) paid out-of-pocket to us the entire amount due for the health care item or service which we provided and billed to you. You must make such a request in writing to us, with a letter addressed to your provider or person in charge of your care at the address where you receive your treatment. If you make such a request, we are required to honor it.
- **Right to Request Confidential Communications:** You have the right to request how we communicate with you to preserve your privacy about your appointments or other matters related to your treatment in a specific way or at a specific location. For example, you can ask that we only contact you at work or by mail.

You may request to receive confidential communications by alternative means or at alternative locations through a form to be provided by your provider or person in charge of your treatment. Your request must be in writing and specify how or where you wish to be contacted. We will not ask you the reason for your request. We will accommodate all reasonable requests; however, we will not accommodate a request that we perceive is an attempt to avoid receiving notice of a bill for the payment of our services.

Effective Date: January 1<sup>st</sup>, 2016

- **Right to a Paper Copy of this Joint Notice:** You have the right to a paper copy of this Joint Notice. You may ask us to give you a copy of this Joint Notice at any time. Even if you have agreed to receive this Joint Notice electronically, you are still entitled to a paper copy of this Joint Notice. You may obtain a copy of this Joint Notice at our website: [<http://www.beaconhealthpartners.com>] or view the Notice of Privacy Practice at any of our locations. To obtain a paper copy, please contact your provider.
- **Right to Notification in Case of Breach of Unsecured PHI:** In the event of an unauthorized or improper use or disclosure of your PHI (i.e., a “breach”), we are required by law to provide you notice of the circumstances surrounding the breach, what we have done to investigate and mitigate the incident, and what we believe are steps that should be taken to best protect you.

### CHANGES TO THIS JOINT NOTICE

We reserve the right to change the terms of this Joint Notice. We reserve the right to make the revised or changed Joint Notice effective for medical information we already have about you as well as any information we receive in the future. We will post a copy of the current Joint Notice at the providers’ facilities. The Joint Notice will contain on the first page the effective date. If we change our Joint Notice, you may obtain a copy of the revised Joint Notice by visiting our website at [<http://www.beaconhealthpartners.com>] or you may request one from your provider.

### COMPLIANCE

If you believe your privacy rights have been violated, you may file a complaint with us or the federal government. You will not be penalized or retaliated against for filing a complaint with us.
